## EXPERIENCE

### Cloud Intern - Identity Collaboration

Jan 2026 – Jun 2026

- Working on identity protocols and collaboration platform integrations, with hands-on exposure to **OAuth 2.0**, **OpenID Connect (OIDC)**, and **SAML-based authentication and authorization flows**.
- Gaining foundational expertise in **Azure cloud services**, applying Azure fundamentals across project implementations.
- Contributing to real-world projects involving **secure identity federation**, **SSO configurations**, and enterprise access management.

### Intern - ProV International

Jun 2024 – Jul 2024

- Developed AI-powered chatbots and virtual assistants using **NLP techniques (intent classification, TF-IDF vectorization, entity extraction)** to automate user support workflows.
- Optimized conversational flow and response selection using ML/statistical methods, **increasing response accuracy by 25%** and **reducing fallback errors by 30%**.
- Deployed the solution end-to-end with scalable REST API-based integration, **improving system efficiency and throughput by 40%** through backend optimization.

## PROJECTS

### MERN Authentication System | *JWT, Express.js, MongoDB, React.js, Nodemailer, REST API*

Aug 2025 - Sep 2025

- Developed a **full-stack MERN authentication system** with secure **JWT-based login**, registration, and protected routes.
- Integrated **6-digit OTP email verification** and password reset workflow using Nodemailer and MongoDB for enhanced account security.
- Designed **responsive frontend** with React.js and Tailwind CSS, including login, signup, and password reset forms connected to backend APIs.

### AI Email Writing Assistant | *React.js, Java(SpringBoot), REST APIs, OpenAI API, Nodemailer*

Nov 2025 - Dec 2025

- Developed a web application that generates **high-quality personalized email drafts** from short user prompts, with **tone customization** for professional use.
- Built a **Spring Boot backend** integrating the **OpenAI API** for natural language generation and implemented secure REST API communication.
- Reduced user email drafting time by **60%** while improving tone consistency.

## SKILLS

Programming & Scripting  
Data Engineering & Databases  
AI/ML & GenAI  
Frameworks  
Skills

: Python, R, Java, C++, JavaScript, HTML, CSS  
: SQL, MySQL, PostgreSQL, MongoDB, Snowflake, Hadoop, Apache Spark  
: LLMs, RAG, NLP, LangChain, ML  
: React.js, Springboot, Node.js, Express.js, Tailwind CSS  
: Git, GitHub, OOPs, Docker, Data Structures and Algorithms, Agile

## CERTIFICATIONS

- Privacy and Security in Online Social Media**  
NPTEL – Swayam

Jan 2025 – May 2025

## EXTRA CURRICULAR ACTIVITIES

- Core team member - GDSC (Google Developer Student Club)**
- Core team member - AI Jalandar**

Since Jan 2023

Since Apr 2024

## EDUCATION

**Lovely Professional University**  
*Bachelor's in Computer Science and Engineering*  
**D.A.V. Public School**  
*Class XII (Science)*

**Punjab, India**  
*Since Aug 2022*  
**Chennai, Tamil Nadu**  
*Apr 2021 – Mar 2022*
